

1

$i R$

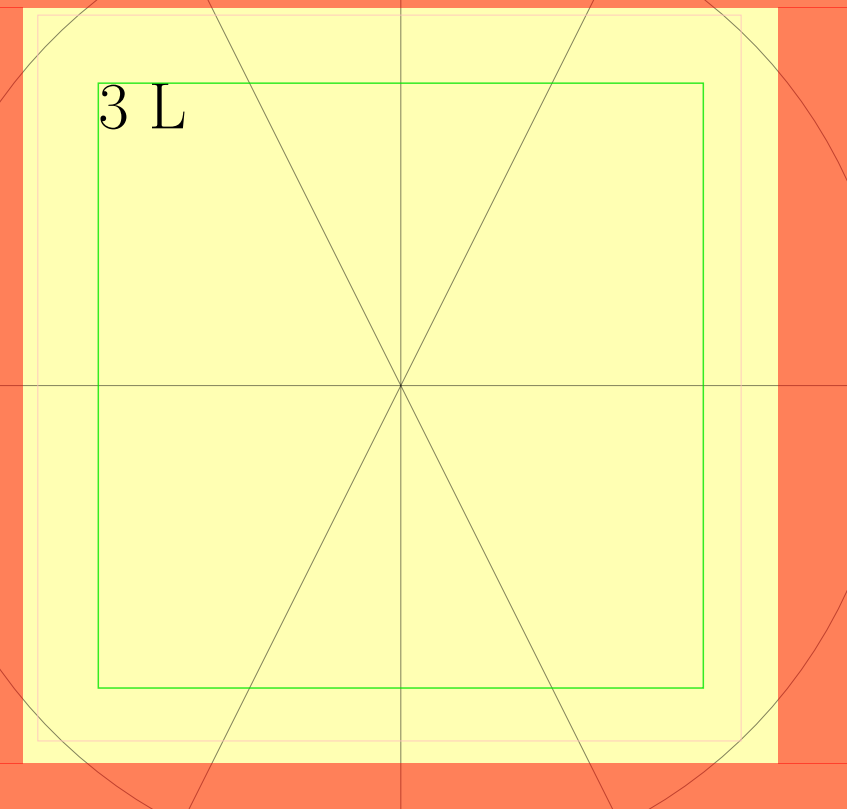

1 L

The image is an abstract geometric composition. It features a large, light red rectangle that serves as the background. Overlaid on this is a large, light blue rectangle. Within the blue rectangle, there is a smaller, light green rectangle. To the right of the green rectangle, there is a vertical strip of light green color, followed by a vertical strip of brown color. A large, thin black circle is positioned on the left side of the image, partially overlapping the red and blue rectangles. A thin black line runs diagonally from the top right towards the bottom left, intersecting the blue rectangle and the green strip. A thin black line runs horizontally across the middle of the image, intersecting the blue rectangle and the green strip. A thin black line runs vertically on the right side of the image, intersecting the green strip and the brown strip. The text '1 L' is located in the top left corner of the green rectangle.

A geometric diagram featuring a large circle with a horizontal center line. Inside the circle, there are two concentric squares: an outer light blue square and an inner green square. The text "2 R" is located in the top right corner of the green square. On the left side, there are two vertical bars: a brown one on the left and a green one on the right, both extending from the top to the bottom of the diagram. The background is a light red color.

2 R

3 L

A geometric diagram consisting of three concentric squares. The outermost square is red, the middle square is yellow, and the innermost square is green. The green square is labeled '3 L' in its top-left corner. Six lines intersect at the center of the squares: a horizontal line, a vertical line, and two diagonal lines. The entire diagram is set against a white background.
